Security Report Summary

A

Site:	https://keeply.work/
IP Address:	172.67.172.173
Report Time:	24 Apr 2026 13:48:54 UTC
Headers:	✔ Permissions-Policy ✔ X-Content-Type-Options ✔ Referrer-Policy ✔ X-Frame-Options ✔ Content-Security-Policy ? Strict-Transport-Security
Warning:	Grade capped at A, please see warnings below.
Advanced:	Great grade! Perform a deeper security analysis of your website and APIs: Try N

Warnings

Strict-Transport-Security	The "max-age" directive is too small. The minimum recommended value is 2592000 (30 days).
Content-Security-Policy	This policy contains 'unsafe-inline' which is dangerous in the script-src directive.

Upcoming Headers

Cross-Origin-Embedder-Policy	Cross-Origin Embedder Policy allows a site to prevent assets being loaded that do not grant permission to load them via CORS or CORF

Additional Information

server	Server value has been changed. Typically you will see values like "Microsoft-IIS/8.0" or "nginx 1.7.2".
access-control-allow-origin	This is a very lax CORS policy. Such a policy should only be used on a public CDN.
strict-transport-security	HTTP Strict Transport Security is an excellent feature to support on your site and strengthens your implementation of TLS by getting th to enforce the use of HTTPS.
permissions-policy	Permissions Policy is a new header that allows a site to control which features and APIs can be used in the browser.
x-content-type-options	X-Content-Type-Options stops a browser from trying to MIME-sniff the content type and forces it to stick with the declared content-typ valid value for this header is "X-Content-Type-Options: nosniff".
referrer-policy	Referrer Policy is a new header that allows a site to control how much information the browser includes with navigations away from a should be set by all sites.
x-frame-options	X-Frame-Options tells the browser whether you want to allow your site to be framed or not. By preventing a browser from framing you defend against attacks like clickjacking.
report-to	Report-To enables the Reporting API. This allows a website to collect reports from the browser about various errors that may occur. You for a free account on Report URI to collect these reports.
nel	Network Error Logging is a new header that instructs the browser to send reports during various network or application errors. You ca free account on Report URI to collect these reports.
content-security-policy	Content Security Policy is an effective measure to protect your site from XSS attacks. By whitelisting sources of approved content, you browser from loading malicious assets. Analyse this policy in more detail. You can sign up for a free account on Report URI to collect re problems on your site.
cross-origin-opener-policy	Cross-Origin Opener Policy allows a site to opt-in to Cross-Origin Isolation in the browser.
cross-origin-resource-policy	Cross-Origin Resource Policy allows a resource owner to specify who can load the resource.
